## MARSHALL TO SELL TITLE TO HILO PROPERTY

Under Compromise Breakwater Equipment Goes to American Surety Company

Three attachment suits which bound together with legal strings the property owned and used by Contractor George E. Marshall in his work on the construction of the Hilo breakwater were discontinued late Monday afternoon as the result of a compromise reached by Marshall and the American Surety Co., as announced in the late news column of yesterday's Star-Bulletin.

As a result of the compromise, say attorneys for the bonding concern, Marshall will sell to the American Surety Co. all right and title to the property in question, which will be taken over by the company for use in completing the breakwater construction. The attorneys say: not yet been informed as to the amount of consideration for the transfer.

Within the next few days the American Surety Co. will dismiss the two suits it recently brought against Marshall, one for specific performance of contract and the other for alleged debt. It is also understood that the Associated Oil Co. and Frederick Mead will dismiss their actions for alleged debt. The attachments dismissed Monday were held by the surety company, the Associated Oil Co. and Mead.

When the government recently annulled its contract with Marshall it assigned the American Surety Co. to complete the breakwater under the original contract. Through the compromise just effected and the transfer of the property, the surety company will be in a position to immediately proceed to rush the breakwater to completion. In the opinion of the attorneys for the company, active work on the breakwater probably was begun this morning.

## DELAY ON LAIMI, PARK AND PUIWA IMPROVEMENT WORK BEING PROTESTED

Because the improvement work on Laimi, Park and Puiwa streets is not progressing fast enough to suit him, James T. Taylor, engineer, has suggested in a letter received by the board of supervisors Monday afternoon that the city engage another engineer to carry on that particular construction. His choice is George Titus. After considerable discussion as to whether Titus should be hired, the matter was referred to the road committee.

Taylor says that he was informed by the engineer's office last October that the work would proceed promptly but to date nothing had been done. He also writes that at his own expense he has laid 2000 feet of concrete curbing and graded part of the sidewalk.

Arnold said that the Laimi, Park and Puiwa streets work was not important and more needed work should come first. Logan and Larsen, however, took the other view, saying that if a man was willing to pay the entire cost, he should have prompt action.

Because the territory of Hawaii has no law relating to the printing and publication of documents, Librarian Robert C. Lydecker of the public archives has recommended in a letter to Secretary Wade Warren Thayer that such a bill be introduced at the coming legislature.

## JAMES L. McLEAN DIES SUDDENLY; CITY IS SHOCKED

(Continued from page one)

said he would come back about Christmas.

The American flag was flown at half-mast today above the Inter-Island's head offices on Queen street. Flags were flown at half-mast on all inter-island steamers and also on the number schooners in port for Allen & Robinson and Lewers & Cooke.

**Spent His Life in Islands**

James L. McLean was strictly a self-made man. He was born in Honolulu in 1867 and celebrated his 49th birthday last May. Prominent in local business, financial and social circles, a man who strove constantly for civic betterment and who displayed active interest in matters for the public good, Mr. McLean's death will be keenly felt throughout the territory.

Mr. McLean received his early education in Honolulu and was graduated from Punahou when a very young man. After finishing the local school he took a course in Heald's Business College in San Francisco and, when 16 years old, returned to Honolulu to become associated with the Inter-Island Steam Navigation Co., with which he was connected in the capacity of vice-president and acting president at the time of his death.

**Begins As Clerk**

Entering the employ of the Inter-Island as a clerk, Mr. McLean displayed unusual talents and, a month later, was placed in charge of the books of the concern. From that time on he rose rapidly in business affairs and for 32 years, until death claimed him, he remained with the shipping and transportation company.

**Factor in Business Life**

From bookkeeper Mr. McLean became secretary of the Inter-Island, then treasurer and finally vice-president. Aside from his connection with the steamship company he had several other business affiliations, being president of the Mutual Building & Loan Association, president of the Honolulu Automobile Club and a director of the First National Bank of Hawaii. As head of the automobile club he was an enthusiastic booster for good roads, and he was also keenly interested in the motives of the Rotary Club. He was also prominent in club circles.

Mr. McLean was identified to some extent with the revolution and the troublesome period prior to the overthrow of the monarchy and the annexation of Hawaii to the United States. He was a member of an organization of "sharpshooters" which was one of the several organizations then opposing Queen Liliuokalani.

He is survived by a widow, who was Miss Jennie Grieve, a daughter of the former owner of the Hawaiian Gazette; by two daughters, Mrs. Alfred W. James and Miss Helen G. McLean, and by two brothers, R. C. McLean of Honolulu and George McLean, now living in California.

**Funeral Services Tomorrow**

The funeral services will be held at 3 o'clock tomorrow afternoon from the family home, 1124 Beretania street. Arrangements as to pallbearers and the place of interment have not yet been made.

## QUESTIONS AND ANSWERS GIVEN ARTILLERYMEN

Members of the two artillery companies of the National Guard are to be given a correspondence course, according to Capt. Lawrence C. Crawford, instructor for the army, who has charge of the men.

Capt. Crawford said today that he has made out lists of questions and answers for the guardsmen, hoping that they will find this an effective method of learning the ins and outs of the work.

Signaling will be commenced at the next drill, cards of semaphore and wig-wag work having been distributed previously.

Capt. George K. Larrison, commanding the 1st Company, C. A. C., who has been absent for two weeks on Maui, returned this morning. This company will hold tracking practice next Thursday.

## BIBLE STUDY STUDENTS RECEIVE ICE CREAM FOR PROFICIENCY IN WORK

The Dodgers are keeping a strong hold on the leadership of the National League division of the Employed Boys' contests now running at the Y. M. C. A. They defeated the Giants in volleyball Monday night in one of the closest and most exciting matches of the season. This match had to go three games instead of two, with the scores going, Dodgers 15, Giants 12; Dodgers 14, Giants 15; Dodgers 15, Giants 9. In the second volleyball match the Red Sox defeated the Tigers in the American League division by the scores of 15 to 5 and 15 to 5.

In basketball the Cubs and Pirates put up a corking good game that had to go an extra five minutes' period to break the 2 to 2 tie that stood at the end of the second half. In this extra period the Cubs succeeded in adding four more points, with the Pirates unable to increase theirs. This gave the game to the Cubs by the score of 6 to 2. In the other game the Athletics defeated the Senators 8 to 5.

For having turned in last week the best examination papers in the Bible study the Giants were treated to an ice cream supper after the games by Jay A. Urice. The boys turning in the five best papers were Hashimoto, Charles Kaalele, Roland McDowell and Tai Hung. These boys were the leaders among the 60 odd who took the examination.

At the bean supper the boys were delighted with a demonstration in table etiquette by E. G. Fulton of Los Angeles. They gave him a big hand at the close of the demonstration.

**Team standings:**

National League—Dodgers 2250 points, Giants 2260, Cubs 1470, Pirates 1260.

American League—Red Sox 1760 points, Athletics 1670, Tigers 1550, Senators 1060.

## PINEAPPLE DAY SUCCESS

Fred J. Halton, San Francisco representative of the Hawaii Promotion Committee, writes to the committee that Pineapple Day in San Francisco was a huge success. All railroad lines running out of San Francisco carried special menus and the hotels had elaborate menus specially prepared for the occasion.

## MANY SEEK RESERVATIONS

Cablegrams continue to pour into the Hawaii Promotion Committee asking for reservations for rooms, suites and apartments. Owing to the large amount of travel toward Hawaii this year the committee has not been in position to guarantee reservations such as are asked. Many requests come from people of wealth who have a number of servants coming with them.

Fire destroyed the warehouse of Arbuckle & Co., a wholesale grocery firm, and slightly damaged the Pittsburg Post, at Pittsburg, Pa., at a loss of \$500,000.

## COMMISSION TO HEAR OF URGED WAGE INCREASE

Question of More Money For Teachers Due for Discussion Next Monday

Proposed increased pay for the public school teachers of the territory probably will be one of the main questions for discussion at a meeting of the territorial school commissioners to be held next Monday in the office of the department of public instruction.

"I shall certainly ask that the teachers be given more money," says Superintendent Henry W. Kinney, who already has advocated the raise and who expressed his views on the question very fully in an interview given the Star-Bulletin Monday. The question of more money, due to the increased cost of living already has been discussed by the Territorial Teachers' Association and Maui Teachers' Association.

An important item of business for Monday's meeting will be the preparation of estimates for the biennial period which begins on January 1, 1918. These estimates probably will be considerably higher than in preceding periods, Superintendent Kinney declaring that it is proposed to get as much money as is needed to put the department in good shape.

Superintendent Kinney, while making no recommendation regarding a salary raise, is of the opinion that the increase should be on the graduated percentage basis.

## MONTANA-BINGHAM IS REPORTED AS NEAR KEYSTONE VEIN

Commenting on progress being made at the Montana-Bingham property, in which many Honoluluans are now interested, the Salt Lake Herald Republican, under date of November 24, says:

"Manager W. E. Hubbard of the Montana-Bingham Mining Company has returned from camp, where he went to look over operations. The tunnel is now in about 4350 feet. Progress is being made at the rate of 12 to 15 feet a day by the aid of the Karns machine. The 12-inch hole is drilled in two and a half hours. The two top shots are then set off; then the holes on the side, all breaking to the center foot bore. Mr. Hubbard says that the drilling of a few hours and shot give a bunch of rock that requires the muckers a day to clear away. A mucking machine is being rigged up which is expected in time to do this day's work in three or four hours.

"The face of the tunnel has been in Bingham Amalgamated ground for several hundred feet. It is probably nearing the Keystone Extension vein now, is the opinion. Back about 400 feet from the present face the Congor vein was crossed. Here the Congor people have put up a raise about 850 feet, showing considerable ore."

## PRETTY HOME WEDDING

Pastor F. H. Conway officiating, a quiet but very pretty wedding was celebrated Monday evening at 1571 Eleventh avenue, when Miss Sadie Levine of Honolulu became the bride of Ross E. McGhee, sergeant of the Coast Artillery Corps, stationed at Fort Kanehehema.

Cornelius Vanderbilt was elected a trustee of the Union Trust Company of New York.
